

Dear Dr. Chen,

Thanks you so much for everything you have helped me with! From the pre-op visits to surgery to post-op visits. You have truly impacted not only my wrestling career, but my life. I was able to walk like a Diva & progress without my shoulder bothering me. I was devastated when I tore my labrum and I thought my wrestling career would be over. I am now wrestling at the collegiate level at New York University studying Neuroscience with a pursuit to get into a medical school where I hope to obtain an M.D and M.B.A. You are one of the reasons as to why I want to be a doctor and impact people's lives. Thank you so much once again for all that you have done for me!

Best,  
Richard D. Hoke
